1 Game Boundaries

- 1.1 This version of Hide and Seek is to be played across Opal-compatible stations and services in NSW.
 - 1.1.1 All non-bus transport stations (excluding Hunter Line, Bombaderry, Berry, Gerringong, Rydal, Tarana, Bathurst, stations between Emu Plains and Doonside inclusive and stations between Merrylands and Liverpool inclusive.) are available hiding spots.
 - 1.1.2 All opal-compatible services can be used by both the hider and seeker.
- 1.2 The borders of the game are defined by the Game Area link, and neither the hider nor seeker are permitted to leave this area during the game.
- 1.3 The game will start on the 31st of January at 9am and will finish by 8pm.

2 Hiding Period

- 2.1 At the start of each round, one team will become the hider while the other becomes seekers. The order that teams become hidere should be determined randomly. The members of each team should stay together at all times.
- 2.2 All players will start the game at Epping Library.
- 2.3 The seekers must carry the seeker phone with them at all times with location services on, while the hider carries the hider phone with them.
- 2.4 The first 60 minutes of a round is the hiding period, during which only the hider may move.
- 2.5 At the end of the hiding period, the hider must be within 500m of a non-bus transit station and not on transport. If there are multiple stations within 500m, the hider must choose one to be "their" station.
- 2.6 For the rest of this round, the hider must stay within 500m of that station.
- 2.7 After this, the seeking phase begins.

3 Asking Questions

- 3.1 At any time in the seeking phase, the seekers can ask questions from the list defined in Section 6.
- 3.2 The hider must answer each question truthfully within 5 minutes (or 10 minutes for photo questions).
 - 3.2.1 While the seekers are waiting for a hider to respond to a question, they may not ask another question.
 - 3.2.2 If the question is not answered within the allotted time, the hider's time is paused until the question is answered and the hider receives no reward.
- 3.3 Seekers are not permitted to use Google Street View or a similar tool. Additionally, seekers may not search for station images or open the images tab of a station on Google Maps. Looking at uploaded images of business on Google Maps is permitted.

4 Hider Deck

- 4.1 After the hider answers a question, they will draw and keep a certain number of cards as defined in Section 6.
- 4.2 If a question is asked multiple times, the hider receives their reward multiple times. For example, if this is the second time a question has been asked, the hider draws a certain number of cards and keeps some, then repeats this a second time. If it was the third time, they would do this process three times, and so on.
- 4.3 The hider can keep a maximum of 6 cards in their hand at any time (unless expanded by a powerup).
 - 4.3.1 If the hider exceeds this hand limit, they must immediately play or discard cards until they are within the limit.

5 End Game

- 5.1 Once the seekers have entered the hiding zone, but are no longer on public transport, the end game will begin.
- 5.2 At the time when the end game begins, the hider must be in a publically accessible hiding spot, and must stay in that hiding spot for the rest of the game.
 - 5.2.1 Your hiding spot must be publically accessible during all game hours.
 - 5.2.2 Your hiding spot must be somewhere you can stay for multiple hours (for this reason it is recommended not to use stores or other businesses).
 - 5.2.3 There must exist a walking route given by Google Maps that goes within 3m of your final hiding spot.
- 5.3 If because of the restrictions of the end game (or for any other reason), answering a question is impossible, then the hider may reply "I cannot answer this question" and still receive a reward.
- 5.4 Once the hiders are within 2 meters and have spotted the seekers, the hider's time is calculated as the total time of the seeking phase plus any time bonuses that are still in the hider's hand.
- 5.5 After this, the new hider has up to 10 minutes of planning before they start their hiding period. During this time, ensure the hiders have the hider phone and the seekers have the seeker phone. Then the game continues from the last hider's hiding position.

- 5.5.1 If the hider's transit station was an intercity station (one that can only be accessed by SCO, STH, CCN, BMT, etc) or the Newcastle Light Rail, the next hider has the option to move their starting location to the closest metropolitan station.
- 5.5.2 If this happens, both the hiders and the seekers will travel together to that station. As soon as everyone disembarks and the train leaves, the hiding phase of the next round begins on the platform.
- 5.6 Once every team has hidden once, the game ends and the team with the longest hiding time wins.
- 5.7 A hider can hide for a maximum of 3.5 hours, after which they must reveal their location to the hiders.

6 Questions

- 6.1 There are 6 categories of questions that can be asked.
- 6.2 Many questions refer to particular classes of locations. In this case, the Google Maps category will be used to determine which locations are included, and any distances are measured from the Google Maps pin (this applies even if erroneous, unless all players agree otherwise). Additionally, only locations within the map's borders are valid answers.
- 6.3 If a question refers to the hider's location, it should be measured to their location at the time of answering, not the location of their transit station.
- 6.4 In general, the seekers should clarify any ambiguity in the question (for example sending a screenshot of every valid amusement park).
- 6.5 A matching question follows the format "Is your nearest [LOCATION TYPE] the [SEEKER'S NEAREST LOCATION TYPE]?"
 - 6.5.1 The hider's reward for answering a matching question is to draw 3 cards and keep 1 of them.
 - 6.5.2 The full list of matching questions can be found in Section 7.1.
- 6.6 A measuring question follows the format "Is your nearest [LOCATION TYPE] closer than [DISTANCE TO SEEKER'S NEAREST LOCATION TYPE]?"
 - 6.6.1 The hider's reward for answering a measuring question is to draw 3 cards and keep 1 of them.
 - 6.6.2 The full list of measuring questions can be found in Section 7.2.

- 6.7 A radar question follows the format "Are you within [DISTANCE] of the seekers?"
 - 6.7.1 The hider's reward for answering a radar question is to draw 2 cards and keep 1 of them.
 - 6.7.2 The full list of radar questions can be found in Section 7.4.
- 6.8 A thermometer question follows the format "After travelling at least [DISTANCE] am I closer than I was?"
 - 6.8.1 If you wish to start a thermometer question, you must first send a Google Maps pin of your current location. Then after travelling at least the appropriate distance (as the crow flies) send a pin of your new location.
 - 6.8.1.1 If you ask another question while the thermometer is active, it is considered cancelled. The hider does not receive a reward.
 - 6.8.2 The hider's reward for answering a thermometer question is to draw 2 cards and keep 1 of them.
 - 6.8.3 The full list of thermometer questions can be found in Section 7.3.
- 6.9 The seekers may ask photo questions from one of the provided categories. If it is not possible for the hider to send a photo that matches the specification, they can reply "I cannot answer the question" but still receive a reward.
 - 6.9.1 The hider has 10 minutes to answer the photo question.
 - 6.9.2 The photo must be taken with the hider phone's normal aspect ratio.
 - 6.9.3 The hider may censor text in photos before sending.
 - 6.9.4 If the seekers ask or receive an answer to a photo question within 10 minutes of arriving in the hider's hiding zone, the hider can pause the game for 10 minutes to finish taking the photo if necessary and move to a final hiding spot. The seekers cannot move during this time, and the hider's clock is paused.
 - 6.9.5 The hider's reward for answering a photo question is to draw 1 card.
 - 6.9.6 The full list of photo questions can be found in Section 7.6.
- 6.10 A tentacles question follows the format "Within 2km of me which [LOCATION TYPE] are you nearest to?"
 - 6.10.1 If the hider is not within 2km, the hider can respond that they are not within reach and still receive a reward.
 - 6.10.2 The seeker should provide a list of each valid location within 2km of their current location.

6.10.3 The hider's reward for answering a tentacles question is to draw 4 cards and keep 2 of them.

6.10.4 The full list of tentacles questions can be found in Section 7.5.

7 Question List

7.1 The locations that a matching question can refer to are:

7.1.1 Commercial airport,

7.1.1.1 The only airports in play are Newcastle and Sydney Airport.

7.1.2 Transit line,

7.1.2.1 This question can only be asked if the seekers are on a moving service.

7.1.2.2 The seekers must send the hider a screenshot of all the stations the service they are currently on will stop at (not pass through). If the hider's station is one of those, they must answer "yes".

7.1.3 Station Name Length,

7.1.3.1 This question counts the number of characters (including hyphens and spaces) on the Google Maps page is the same as the seeker's current station or not.

Table 1: Distribution of cards in the hider deck

8 Hider Deck and Curses

- 8.1 There are three types of cards in the hider deck, time bonuses, powerups and curses, and their distribution can be found in Table 1.
- 8.2 Time bonuses give extra time only if held in hand until the end of the game. The time granted ranges from 3 minutes to 18 minutes.
- 8.3 A randomise card can be played in response to any question asked by the seekers (within the allotted answer window).
 - 8.3.1 When played, the seekers randomly choose between the unasked questions in the same category. This question is asked instead.
 - 8.3.2 The hider only receives a reward for answering the randomised question.
 - 8.3.3 The original question is not considered to have been asked, so can be asked again.
- 8.4 A veto card can be played in response to any question asked by the seekers (within the allotted answer window).
 - 8.4.1 When played, the question does not have to be answered by the hider.
 - 8.4.2 The hider receives no reward.
 - 8.4.3 The original question is considered to have been asked, so if asked again will be for an increased price.

- 8.5 A duplicate card can be played to duplicate any other card in your hand.
- 8.6 A "discard 1, draw 2" or "discard 2, draw 3" card can be used to discard a certain number of cards from the hider's hand to draw that many.
 - 8.6.1 The hider must have enough cards to discard the required amount.
 - 8.6.2 The overall number of cards in the hider's hand stays the same since the discard x , draw $x + 1$ card is also discarded.
- 8.7 When a draw 1, expand maximum handsize by 1 card is played, the hider can draw an additional card and the maximum number of cards they have expands by one (usually from 6 to 7).
- 8.8 You can play multiple curses at once (provided you can pay the provided casting cost for each one), but there may only be one active curse preventing the seekers from asking questions or taking transit.
- 8.9 The 28 curses in the deck are the following (see card description for additional information):
 - 8.9.1 Curse of the Zoologist;
 - 8.9.1.1 The seekers must be able to identify the type of animal from the photo.
 - 8.9.1.2 A "bug" is anything that is colloquially called a bug (including insects, arachnids, diplopoda, chilopoda, etc)
 - 8.9.1.3 "Wild" means not in human captivity.
 - 8.9.2 Curse of the Unguided Tourist;
 - 8.9.2.1 The structure cannot be a road or path.
 - 8.9.3 Curse of the Endless Tumble;
 - 8.9.3.1 The 30m is measured parallel to the ground.
 - 8.9.3.2 The die can be rolled on an inclined surface.
 - 8.9.3.3 If the die is lost or does not land cleanly on one side, the curse cannot be counted.
 - 8.9.3.4 Any time bonuses should be delivered immediately.
 - 8.9.4 Curse of the Hidden Hangman;
 - 8.9.4.1 The word must be identified by the Google English dictionary.
 - 8.9.4.2 If the hider doesn't respond within 30 seconds, the curse is cleared instantly.
 - 8.9.5 Curse of the Overflowing Chalice;

8.9.6 Curse of the Mediocre Travel Agent;

8.9.7 Curse of the Luxury Car;

8.9.7.1 The hider must send a photo of a car, and the seekers must confirm that the car is the one the hider claims (and vice versa).

8.9.7.2 The cost calculation should include year of manufacturing but not any additional modifications.

8.9.8 Curse of the U-Turn;

8.9.8.1 If the hider is unsure about whether the hider's are on transit or which station their train will stop at next, they may ask.

8.9.8.2 Even if the seeker's current mode of transit would eventually lead them closer, if the next stopping station is further then you can play this curse.

8.9.8.3 If there is any ambiguity, the hider must inform the seekers what they believe is the seekers next station.

8.9.9 Curse of the Bridge Troll;

8.9.10 Curse of the Water Weight;

8.9.10.1 Any liquid already carried by the seekers does not count.

8.9.10.2 The liquid does not have to be evenly carried by the seekers.

8.9.10.3 The liquid is abandoned if the seekers do not have the original liquid with them when they reach the hider.

8.9.11 Curse of the Jammed Door;

8.9.11.1 The dice can only be rolled once the seekers can see the doorway.

8.9.11.2 Doorways within a building that lead to other parts of the same building do not need to pass a dice check.

8.9.11.3 If the curse expires while a door is on cooldown, the cooldown also immediately expires.

8.9.11.4 If there is any dispute, err on the side of doing a dice check.

8.9.12 Curse of the Cairn;

8.9.12.1 The hider cannot begin fulfilling the casting cost of this curse if they would be unable to play a curse for another reason.

8.9.12.2 Once the hider has fulfilled the casting cost, they must play the curse immediately.

- 8.9.12.3 Found in nature doesn't mean the rocks must have been untouched by humans, but that you must find the rocks yourself, not purchase them.
- 8.9.13 Curse of the Urban Explorer;
 - 8.9.13.1 Any pending question asked on transit must still be answered.
 - 8.9.13.2 Seekers cannot ask questions on a platform or in the station building.
- 8.9.14 Curse of the Distant Cuisine;
 - 8.9.14.1 The restaurant must reference a specific country or subregion of a country in the name or on the menu.
 - 8.9.14.2 It must be by far the most prominent country or subregion of a country referenced in this way.
 - 8.9.14.3 Measure from the nearest point in that country.
- 8.9.15 Curse of the Right Turn;
 - 8.9.15.1 The curse only applies to street intersections (meaning the passage is intended for cars), or footpaths along streets.
 - 8.9.15.2 The curse has no effect indoors or in any other areas where cars are not meant to go.
- 8.9.16 Curse of the Labyrinth;
 - 8.9.16.1 Solvable means that there is a conventional solution to the maze.
 - 8.9.16.2 The time limit starts from the first line drawn, not from when the hider first start collecting materials.
 - 8.9.16.3 If the hider chooses to restart their maze, they do not restart their time limit.
 - 8.9.16.4 You must not consult the internet or any other materials when drawing the maze.
- 8.9.17 Curse of the Bird Guide;
 - 8.9.17.1 There must be a recognisable portion of the bird on camera the whole time.
- 8.9.18 Curse of the Drained Brain;
 - 8.9.18.1 If this curse is played while the seekers are waiting for an answer to a question, the hider's hand is discarded before they receive reward for answering that question.

- 8.9.18.2 If you do this, you cannot ban the question that the seekers are waiting on.
- 8.9.18.3 This curse removes questions from the game, not simply increases their cost like a veto.
- 8.9.19 Curse of the Ransom Note;
 - 8.9.19.1 The hider cannot begin fulfilling the casting cost of this curse if they would be unable to play a curse for another reason.
 - 8.9.19.2 Once the hider has fulfilled the casting cost, they must play the curse immediately.
 - 8.9.19.3 Neither the hider nor the seekers can use game material, or anything printed by themselves.
 - 8.9.19.4 The message should be clear enough for the hider to discern the meaning without further clarification.
 - 8.9.19.5 The message only has to specify which question the seekers are asking next, additional information such as thermometer starting points, or a list of nearest museums for a tentacles can be provided by message as normal.
- 8.9.20 Curse of the Gambler's Feet;
 - 8.9.20.1 If it would be unsafe to stop walking (such as crossing a busy road), the seekers may walk to the end of the unsafe area, and then roll to catch up the additional steps.
- 8.9.21 Curse of the Prosperous Home;
- 8.9.22 Curse of the Void;
- 8.9.23 Curse of the Express Route;
- 8.9.24 Curse of the Zipped Lip;
- 8.9.25 Curse of the Plagued Word;
- 8.9.26 Curse of the Queue
- 8.9.27 Curse of the Rewind
- 8.9.28 Curse of the Tiny Home
